

JWT Waste has a wide selection of skips to carry all kinds of discarded materials from demolition sites, construction sites, industrial units and commercial premises. Amongst our regular customers are major house builders, contractors and large industrial waste producers.

With payloads of up to 8 tonnes, JWT Skip Loaders can drop off and collect skips of varying sizes for practically any application. Please call to discuss your specific requirements.

JWT guarantees that all collected waste is transported safely and treated in an environmentally conscious manner at our specialist Recycling Centre, with all necessary paperwork completed on behalf of the customer.

## *“A wide selection of skips for all types of waste”*
